

### SPECIFICATION

Surface Mounted Medium Capacity Waste Bin shall have a capacity of 24.8 litres. Unit shall be fabricated of alloy 18-8 stainless steel, grade 304, 22 gauge with No. 4 satin finish and be protected during shipment with a PVC film easily removable after installation. Bin shall have no exposed fastening devices or spot welded seams and shall have front outer edges rounded to 13mm radius. Unit shall be provided with four (4) 'key hole' slots on rear for hanging on pre-installed screws.

### INSTALLATION

Hang unit on (4) No. 10 screws (supplied by others) on wall through concealed mounting 'key hole' slots. For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use.

### OPERATION

User deposits waste material. Maintenance schedule determines trash removal cycle. Unit is emptied by removing collection liner bag to empty into appropriate bulk collection bin. Liner is washable and reusable.

### WARRANTY

One year.

**Surface Mounted Medium Capacity Waste Bin** shall be Model No. 10-0828 as supplied by ASI JD MacDonald.
