

FEATURES

Recessed Vertical Baby Change Station with Full Stainless Steel includes a concealed pneumatic gas spring mechanism for smooth and safe opening and closing. The hygienic, non-absorbent child safety strap features a lockable two step cam-buckle providing effortless size adjustment with one hand. The ABS changing surface is easy to clean and resists odours and bacterial growth. Safety information and universal instruction graphics are illustrated on easy to read labels. Ideal for use in unsupervised, low maintenance facilities such as parks and rest areas that may be subject to vandalism. Stainless steel frame and hinges provide maximum durability. Protruding corners protected with plastic covers for maximized changer bed safety. Edges of the stainless steel unit are protected with a continuous PVC extrusion.
