#### **Specification:**

Double Jumbo Roll Toilet Roll Holder shall hold two (2) 229mm diameter rolls of 76mm diameter or 57mm diameter core tissue. Unit cabinet, door and mounting plate shall be fabricated of ABS plastic with transparent finish and shall be protected during shipment with a PVC packing. Door shall be of drawn one piece seamless construction with integral ruggedising ribs. Door shall be hung on heavy duty hinges and shall be held closed by a tumbler lock keyed. Dispensing mechanism shall be fabricated of high impact chemical and flame retardant ABS. Unit shall accommodate smaller core size rolls by removing the core adapters. When one roll is depleted, other roll shall be selected by shifting over panel lever at bottom of unit. Unit shall automatically reset to first roll during maintenance access.

#### **Installation:**

For general utility surface mount unit within 305mm of front of toilet from centre line and 787mm above finished floor from bottom of unit with five (4) screws through mounting holes provided. For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use.

#### **Operation:**

Two (2) 229mm jumbo rolls of toilet tissue are mounted over 76mm ID core adapters. Two (2) 57mm ID core rolls may be used by removing the core adapters. Whenever one toilet roll is depleted, the other roll is selected by shifting over the lever at the bottom of the unit. Transparent surface reveal tissue level. Key locked door prevents unauthorised access or removal. Tissue supply is replenished on a cycle determined by maintenance needs.
