

# Hand Dryers

## Vortex OZ1650(S) Hand Dryers

OZ1650

OZ1650S

### Details -

This automatic hand dryers offer both an all-closed ABS structure and a Stainless Steel one.

They feature a Powerful Motor and Heater, low noise 60dB, convenient use and safe Hands Drying time of 30-40s

Environmentally friendly hand dryiers, total power consumption with the heater 1650watts

Easily plug them into the power point to operate (power cord located on the right side)

These hand dryiers turn on automatically through the activation of the infra red sensors

To acquire a satisfactory drying of your hands, you just need to put your hands close to the exit air opening of the dryer, without pressing elsewhere preventing any possible cross contamination

Dryers will stop automatically 5 seconds after you move hands away.

Dimension: (H)285mm x (W)230mm x (D)140mm
